

*Delight your patients with an exceptional experience:
medium-depth clinical performance with TRUE zero downtime!*

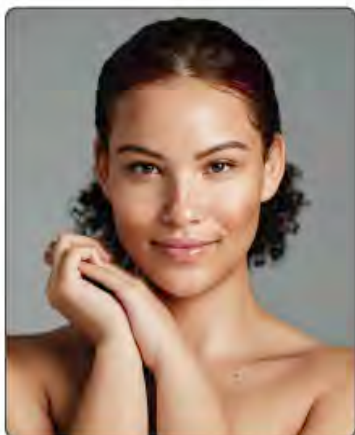

The CHRYSALIS™ Peel System

Resurface & Remodel with Unprecedented Targeting and Control

Powered by the revolutionary Q.Pro™ bi-phasic, multi-acid serum & gel platform, proudly manufactured in Italy by DERMQODELAB™

TRUE zero downtime

Full-strength, medium depth blended acid peel for targeted stimulation

NO burning or pain, just a mild sensation of warmth

Micronized exfoliation:
NO frosting, flaking, peeling

Formulated to improve pore size, fine lines & wrinkles, tone, texture, and skin structure & resilience

Immediate results:
More radiant, supple, and deeply hydrated skin

Safe for all skin types, all seasons and all ages

FORGET WHAT YOU KNOW ABOUT PEELS

CHRYSLIS™ is a tectonic shift in peel performance and recovery!

DERMOCODELAB™ has developed the most technically advanced approach to **Resurfacing & Remodeling** – with **TRUE zero downtime** – available today in medical aesthetics.

The unique and novel formulations in **CHRYSLIS™** leverage a bi-phasic design. **This is the only peel that simultaneously delivers:**

Stimulation: The tailored skin pH prep and a purposefully targeted acid blend achieves boosting & performance-enhancing effect without brute force ... *it feels like a warmed oil, not harsh or aggressive.*

Immediate Soothing & Calming: A carefully curated set of premium quality, naturally-sourced ingredients that have been shown to provide anti-inflammatory, anti-bacterial and accelerated recovery support properties.

The Q.PURE™ pH prep solution cannot be substituted so it is provided with each acid.

The “smart design” of the **CHRYSLIS™** Peel System also gives you the ability to tailor the composition of your treatment to your patient’s unique condition and other modalities you may be using to help accomplish their aesthetic goals.

Now you can meet your patient’s expectation of effectively delivering renewed and revitalized skin **without disrupting their lifestyle or daily routine.**

CHRYSLIS™ is clinical performance with **TRUE zero downtime!**

Introduced in Europe in 2023, and already available in the U.S. through our strategic partnership, adding **CHRYSLIS™** puts your practice on the **leading edge of peel performance and patient experience.**

INCLUSIVE & HARMONIOUS: BONUS AT-HOME SUPPORT THAT ELEVATES IN-CLINIC RESULTS & EXPEDITES RECOVERY

For the vanity ...

Q.SUPREME™ Daily Moisturizer

Used in the morning and evening, and as needed during the day. **Q.SUPREME™** is rich yet not oily, and easily absorbed with a pleasant, light scent from the natural and sustainably-sourced ingredients.

For on-the-go ...

Q.ILLUME™ Daytime Hydrator

A delightful, medium weight emulsion for on-the-go, full-face hydration that can be applied over makeup. **Q.ILLUME™** is also excellent for around the eyes (dark circles, puffiness and wrinkles) as well as oily patches where moisturizer may be too rich.

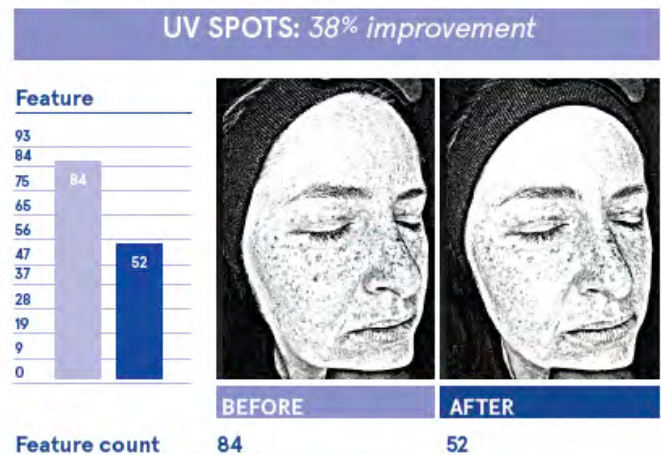

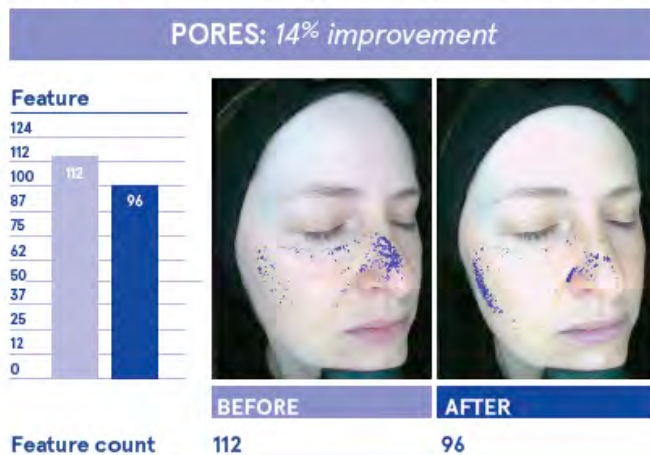

The **CHRYSALIS™** Peel System

The **ELIXIR del doppio™** technique is a protocol that was developed by noted Dermatologist Viktor Shavlak, M.D. This technique strategically harnesses the distinct and complementary properties & mechanisms of action of both **ICONIQ™ Harmonizing Serum™** and **NEOTHESIS™ Advanced gel estetica.™**

1. **Targeting Multiple Skin Concerns:** Customization allows you to simultaneously address multiple issues, leading to more comprehensive improvements.
2. **Synergistic Effects:** These blended, multi-acid peels work synergistically, building on the complementary effects of both components and collectively enhancing their independent efficacy profiles.
3. **Personalization:** Deploy a more versatile, effective and client-specific approach, and showcase your individualized attention in the treatment room.

This robust yet well-tolerated combination protocol delivers a precisely targeted 37% blended acid peel at an uncommonly low pH between 1-1.5.

Results from a Single Combination Protocol Session measured with V8 SkinAnalyzer

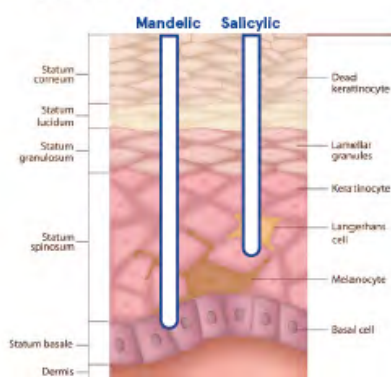

Key Ingredients:

Mandelic Acid
Salicylic Acid
Phytosphingosine
Hydrolyzed
Glycosaminoglycans
Hyaluronic Acids LMW/MMW

Case profile:

Uneven texture
Dull skin
Acne-prone skin
Dehydrated skin

Acid Profile:

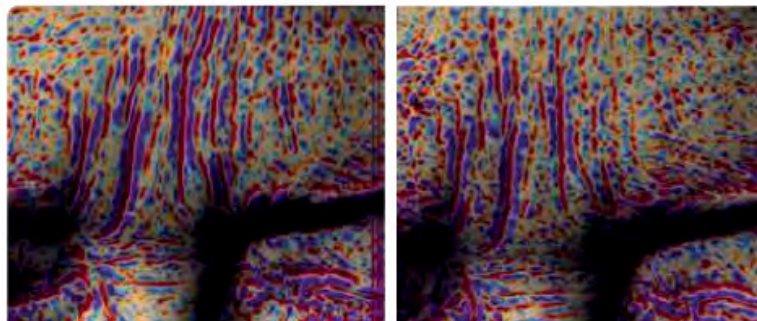

Level: 32%

pH: 2-2.5

Detailed references and references with supporting abstracts regarding the clinical support for the formulation of NEOTHESIS™ Advanced Gel Estetica™ is available upon request.

NEOTHESIS™ Advanced gel estetica™ is a well-balanced, multi-acid topical. It helps slough expired cells, clear pores and stimulates collagen and elastin formation to deliver a lifting & rejuvenating effect. It also assists in protecting cellular structures, inhibiting melanogenesis & tyrosinase (hyperpigmentation) and supporting the Krebs Cycle (protein synthesis and cellular repair).

About Derma Primis

Derma Primis (d1) means *skin first*, and healthy radiant skin is behind everything we do and how we do it.

Centrally located in the Health Care innovation corridor just north of Chicago, our experienced leadership team has demonstrated success in pharma, medical devices and aesthetic health care.

Together, we form a robust commercialization and distribution practice, focused exclusively on highly-differentiated, exceptional quality aesthetic solutions for medically-supervised clinics, including Dermatologists, Plastic Surgeons, Med Spas and Medical Health & Wellness Clinics.

Our portfolio provides you with innovative and effective tools to address:

Resurfacing & Remodeling
Pigmentation Control
Revitalization & Regeneration
Natural Hair Restoration

Before we agree to help develop the market for any medical technology, it must pass three screening criteria:

1. Deliver meaningful improvement in efficacy for a clear and defined clinical need.
2. Provide an exceptional client experience, both in terms of the treatment they receive and the value of their investment.
3. Support the providers who trust us with rapid payback and an attractive return for their practice.

Our promise is to be your partner in developing a sustainable and successful clinic. We are committed to developing and delivering robust training, education and clinical references and marketing resources you need for effective practice development.

About our partner DERMQODELAB

Modern beauty means facing each new day with a greater sense of well-being. Self-care and finding balance in our inner and outer equilibrium can lead to a more fulfilling and gratifying lifestyle.

We believe that skin is one of our most important organs, that purity is paramount, and less is more in how we nurture and care for our skin.

We specialize exclusively in the sourcing, formulation and production of exceptional quality skin care products.

We are focused on supporting and empowering professionals so their patients' skin can reveal radiant beauty at every age.

Our products support a more youthful and naturally healthy look among the diverse skin conditions and types that comprise our unique, individual traits. We are inspired by the prospect of lifting the spirit, creating a joyful mood, and helping people live a fuller life by enhancing their natural beauty. We strive to create innovative and hi-tech solutions, respect the environment, and maintain an open and universally accepting mindset.

We aim to help our clients feel more powerful, more beloved and more confident in themselves.
